

Hello Base 2,

How are you all? I hope you are all ok and made the most of the sunshine while it was here. I miss you all and am always thinking of you all.

What have you been spending your time doing recently? I am back in school now keeping very busy with lots of cleaning, tidying and sorting jobs, getting school ready for whenever we are all able to come back again.

I hope you are all still enjoying your learning at home. I am always looking at Kahn academy and Numbots to keep up to date with the learning you are doing and I can see that some of you are working your socks off! Well done! It would be lovely to see pictures or hear about the other bits of learning you have been doing. If you would like to show me anything you have created/written/completed you can email it or post it to school and I will be able to see!

I have still been really enjoying spending time reading in the evenings and at the weekends. Have you read any books that you can't wait to share with your friends? Have you recommended a book to a friend or family member and they loved it as much as you? Make sure you are reading as much as you can, this could be reading a picture/chapter book with a family member, reading a school book, or even listening to a story.

Miss Phillips has put together some new home learning for you all with lots of interesting and exciting activities for you to complete. It is really important that you keep going with your learning at home to keep expanding your knowledge and skills. If you want any help, support or want to share anything with me call or email school and I will help wherever I can.

I can't wait to see you all again and look forward to hearing all about all the things you have been spending your time doing.

From
Miss McKinnon
